steelseries SIBERIA v2 FULL-SIZE HEADSET

steelseries professional gaming gear

Product description

The SteelSeries Siberia v2 USB Full-size Headset was developed in cooperation with professional gamers to ensure that the soundscape and design would meet the demand of gamers and audiophiles. The improved multi-functional headset was designed with new thicker leather ear-cups for outside sound isolation while remaining lightweight with its trademark headband suspension for premium comfort during long periods of game play. As an upgrade from the original SteelSeries Siberia Headset, the new v2 sports a retractable uni-directional microphone for convenience in switching the headset from gaming on your PC or XBOX to listening to music on your Mp3 player.

The USB version features a 7.1 virtual sound USB soundcard that which is a great alternative for your on-board soundcard.The USB version supports the following systems: Win XP/Vista/Win 2000/Win 98/Win ME. The USB sound card is compatible with Mac, however the software is only available for Windows operating systems.

Special features

- Closed ear headphones
- Pull-out microphone
- Crystal clear high, low and mid-tones
- 50mm driver units
- Lightweight suspension construction
- Virtual Surround 7.1 USB Soundcard
